

Dear \_\_\_\_\_,

Last year many letters were sent to you regarding the concerns early childhood professionals, like myself, have about the trainings the state offers. Since last year the communication regarding the trainings has been improved. I am contacting you to ask that the E.C.I.C. provide opportunities for me to receive appropriate training by:

- Offering training outside of business hours
- Making training available in my community

Thank you for taking the time to read my concerns. I look forward to your response.
